VERSE 1 :

```
C                               Em
Your mouth is a revolver firing bullets in the sky.
C                               Em
Your love is like a soldier, loyal till you die.
F                               Am
And I've been looking at the stars for a long, long time.
                               C
I've been putting out fires all my life.
                               G
Everybody wants a flame, but they don't want to get burnt.
And today is our turn.
```

CHORUS :

```
C                               Am                               F
Days like these lead to, nights like this lead to love like ours,
                               Am(kurz)                               G(kurz)
You light the spark in my bonfire heart.
C                               Am
People like us, we don't need that much.
                               F                               Am(kurz)                               G(kurz)
Just someone that starts, starts the spark in our bonfire hearts.
```
