                         C                      G
Well you only need the light when its burning low

Only miss the sun when its starts to snow
              C                      G      D (2x)
Only know you love her when you let her go
                     C                      G
Only know you've been high when youre feeling low
            D                      Em
Only hate the road when youre missin home
              C                      G      D (2x)
Only know you love her when youve let her go

Em     C      D (2x)

[Verse 1]
Em                              C
Staring at the bottom of your glass
     D                        Bm
Hoping one day you will make a dream last

                Em           C        D (2x)
The dreams come slow and goes so fast
     Em                          C
You see her when you close your eyes
       D                      Bm
Maybe one day you will understand why
              Em           C      D (2x)
Everything you touch all it dies
```

```
[Chorus]
                              C                         G
But you only need the light when its burning low
            D                        Em
Only miss the sun when its starts to snow
            C                      G    D (2x)
Only know you love her when youve let her go
                          C                         G
Only know youve been high when youre feeling low
            D                        Em
Only hate the road when youre missin home
                      C              G    D (2x)
Only know you love her when youve let her go

[Verse 2]
Em                          C
Staring at the ceiling in the dark
        D                      Bm
Same ol empty feeling in your heart
          Em              C        D (2x)
Love comes slow and it goes so fast
        Em                      C
Well you see her when you fall asleep
                    D              Bm
But to never to touch and never to keep
                          Em
Because you loved her too much
        C              D (2x)
And you dive too deep

[Chorus]

              Em
And you let her go
      C        D (2x)
Ooooo ooooo oooooo
                  Em
And you let her go
          C        D (2x)
Ooooooo ooooo ooooo
                  Em
And you let her go

C     D (2x)
Em    C     D (2x)

[Chorus]

Schluß:
                          C                         G
Cause you only need the light when its burning low
            D                        Em
Only miss the sun when it starts to snow
                  C                      G      D (gentle stroke)
Only know you love her when youve let her go
                    (Em)
And you let her go
