Thinking out Loud

Ed Sheeran

D/F#:2x0232         Bm:x24432 oder xx4432

D        D/F#                           G        A
When your legs don't work like they used to before
D        D/F#                           G        A
And I can't sweep you off of your feet
D        D/F#                           G        A
Will your mouth still remember the taste of my love
D        D/F#                           G        A
Will your eyes still smile from your cheeks

D        D/F#                           G        A
And darling I will be loving you till we're 70
D        D/F#                           G        A
And baby my heart could still fall as hard at 23
D        D/F#                           G        A
And I'm thinking bout how

Em                       A
People fall in love in mysterious ways
Em                       A
Maybe just the touch of hand
Em                       A
Well me I fall in love with you every single day
Em                       A
And I just wanna tell you I am

D        D/F#                           G        A
So honey now..
D        D/F#                           G        A
Take me into your loving arms
D        D/F#                           G        A
Kiss me under the light of a thousand stars
D        D/F#                           G        A
Place your head on my beating heart
G        A
I'm thinking out loud

Bm                       A        D        G        A        D/F#      Em        A        D
And maybe we found love right where we are

D        D/F#                           G        A
When my hair's all gone and my memory fades
D        D/F#                           G        A
And the crowds don't remember my name
D        D/F#                           G        A
When my hands don't play the strings the same way
D        D/F#                           G        A
I know you will still love me the same
Cause honey your soul could never grow old it's evergreen
And baby your smile's forever in my mind and memory
And i'm thinking bout how

People fall in love in mysterious ways
And maybe it's all part of plan
Well I'll continue making the same mistake
Hoping that you'll understand

That baby now..
Take me into your loving arms
Kiss me under the light of a thousand stars
Place your head on my beating heart
I'm thinking out loud

That baby we found love right where we are

So baby now
Take me into your loving arms
Kiss me under the light of a thousand stars
Place your head on my beating heart
I'm thinking out loud

That maybe we found love right where we are
Baby we found love right where we are
And we found love right where we are
